Experience

FDS Asya Philippines Inc.
Fullstack Web Developer (Intern)

San Pablo City, Laguna
Feb – May, 2026

- Designed and developed responsive, user-friendly web applications using Flutter, Dart, and backend technologies to deliver complete end-to-end solutions.
- Translated UI/UX designs into functional frontend interfaces while integrating APIs, databases, and server-side logic.
- Collaborated with cross-functional team members to implement, optimize, and maintain features across frontend, backend, and system modules.

Seminars & Trainings

Hour of Code Campaign (2025) — AI Ready ASEAN Programme, Break the Free Movement

- Participated in a coding and AI-focused educational campaign, gaining exposure to programming fundamentals, digital innovation, and collaborative technology learning initiatives.

Software Crafters Manila Meetup: Building Momentum 2025 — Software Crafters Manila

- Participated in a software engineering meetup focused on modern development practices, engaging with discussions on building momentum in engineering teams and community-driven learning.

The Future of Development: Will Vibe Coding Replace Traditional Programming? (2025) —
Institute of Computer Engineers of the Philippines

- Attended a technology seminar discussing emerging software development trends, including the impact of AI-assisted and “vibe coding” approaches on traditional programming practices.
